## Median \& Quartiles

Remember:
Median: Middle number (when data is in order) Lower Quartile: Halfway between lowest number and median Upper Quartile: Halfway between median and highest number

1. Percentage achieved in a Statistics test:

788274456875935461704866625177

Median: Lower Quartile: Upper Quartile:
2. Minutes per day spent playing computer games:

4026606433392846475155

Median: Lower Quartile: Upper Quartile:
3. Time taken (in minutes) to solve a crossword puzzle:

122421168933118273541261217651929

Median: Lower Quartile: Upper Quartile:
4. Weight in kg of year 10 boys:

475163394257363749326054564552

Median:
Lower Quartile:
Upper Quartile:
5. Height in cm of a group of year 10 girls:

153147160146162158159149152150163

Median:
Lower Quartile:
Upper Quartile:

## Box Plots

1. Draw a box plot for the percentage achieved in the statistics test.

2. Draw a box plot for the minutes per day spent playing computer games.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | 1 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  | 40 |  |  |  |  |  |  |  |  |  |  |  |

3. Draw a box plot for the time taken (in minutes) to solve a crossword puzzle.

| 0 | 10 | 20 | 30 | 40 | 50 |
| :--- | :--- | :--- | :--- | :--- | :--- |

4. Draw a box plot for the weight in kg of year 10 boys.

5. Draw a box plot for the height in cm of a group of year 10 girls.

Remember:
Median: Middle number (when data is in order) Lower Quartile: Halfway between lowest number and median Upper Quartile: Halfway between median and highest number

1. Percentage achieved in a Statistics test:
$\begin{array}{llllllllllllllllllll}78 & 82 & 74 & 45 & 68 & 75 & 93 & 54 & 61 & 70 & 48 & 66 & 62 & 51 & 77\end{array}$
$45485154616266 \quad 687074757778 \quad 8293$

Median: 68
Lower Quartile: 54
Upper Quartile: 77
2. Minutes per day spent playing computer games:
$40 \quad 26 \quad 606433392846475155$
$26 \quad 28333940464751556064$
Median: 46 Lower Quartile: $33 \quad$ Upper Quartile: 55
3. Time taken (in minutes) to solve a crossword puzzle:
$\begin{array}{lllllllllllllllll}12 & 24 & 21 & 16 & 8 & 9 & 3 & 31 & 18 & 27 & 35 & 41 & 26 & 12 & 17 & 6 & 5\end{array} 1929$

Median: 18 Lower Quartile: $9 \quad$ Upper Quartile: 27
4. Weight in kg of year 10 boys:
$47 \quad 51 \quad 633942573637493260545645 \quad 52$
$\begin{array}{llllllllllllllllllllllllllll}32 & 36 & 37 & 39 & 42 & 45 & 47 & 49 & 52 & 54 & 57 & 63\end{array}$
Median: 49
Lower Quartile: 39
Upper Quartile: 56
5. Height in cm of a group of year 10 girls:

153147160146162158159149152150163
146147149150152153158159160162163

Median: 153
Lower Quartile: 149
Upper Quartile: 160

## Box Plots ANSWERS

1. Draw a box plot for the percentage achieved in the statistics test.

2. Draw a box plot for the minutes per day spent playing computer games.

3. Draw a box plot for the time taken (in minutes) to solve a crossword puzzle.

4. Draw a box plot for the weight in kg of year 10 boys.

5. Draw a box plot for the height in cm of a group of year 10 girls.
